ACADEMIC DETAILS

B.Tech (IT Engineering)	2021-2025	Maharaja Agrasen Institute of Technology, Delhi	7.64 / 10.00
-------------------------	-----------	---	--------------

INTERNSHIP/EXPERIENCE

ReactJS Intern **Opt Alpha Private Ltd** *July 2024-Aug 2024*

- Reduced API response times by **35%** using React Query with caching and background sync, enhancing real-time performance in data-heavy modules.
- Refactored global state management using Redux Toolkit, leading to a **30%** reduction in unnecessary re-renders and smoother UI experience.
- Integrated Firebase Auth for secure login flow, reducing authentication errors and improving user onboarding.

Summer Intern **Defence Research and Development Organisation (DRDO)** *May 2024 - June 2024*

- Spearheaded the development of a military-grade data visualization dashboard using ReactJS, enabling DRDO analysts to derive insights **20%** faster.
- Implemented secure backend operations using Firebase with role-based access, reducing data tampering risks by **30%**.
- Used Chart.js and custom SVGs to boost data comprehension by **30%** among internal teams.

Web Developer **Brand Bugle India** *October 2023 - April 2024*

- Developed and deployed 3 SEO-optimized responsive websites, increasing organic traffic by **25%** and boosting client engagement.
- Diagnosed and resolved performance issues in **20+ existing websites**, reducing **load times by 30%** and improving Google PageSpeed score.
- Integrated modular JavaScript code and PHP-based secure forms to improve site interactivity and user data security.

PROJECTS

Dev Tinder | [Link](#) | [Frontend](#) | [Backend](#)

- Tech Stack:** React, Redux, Daisy UI, TailwindCSS, NodeJS, ExpressJS, MongoDB, AWS EC2 Instance for Deployment.
- Built a matchmaking platform for developers using MERN Stack, deployed on AWS EC2, handling real-time connection requests and user messaging.
- Integrated JWT Auth for secure user sessions, and implemented profile-based recommendations using MongoDB queries.
- Designed RESTful APIs and Node middleware to handle file uploads, validations, and access controls.

Netflix GPT | [Link](#) | [GitHub](#)

- Tech Stack:** React, Redux, TailwindCSS, Firebase Login/SignUp Authentication, TMDB API, Gemini API
- Built a Netflix UI clone integrated with **GPT-based movie recommendations**, using TMDB and Gemini APIs for real-time suggestions.
- Designed multi-language support, route protection with Firebase Auth, and dynamic search UI for enhanced user experience.

ACHIEVEMENTS

- Ranked in **top 1.5%** out of 30000+ participants in Weekly Contest 459.
- Delivered a speech rated highest by audience among 15+ speakers at Toastmasters.

SKILLS

- Technical:** C/C++, HTML/CSS, JavaScript, SQL
- Libraries/Frameworks:** React.js, Node.js, Express.js, RESTful APIs, Tailwind CSS, Jest
- Databases:** MongoDB, MySQL
- Computer Fundamentals:** OOPS, DBMS
- Developer Tools:** Visual Studio Code, Git / GitHub, Postman API

EXTRACURRICULAR

- Public Speaking at Toastmasters
- Listening to music
- Adventurous Trip
